Researcher I – Environmental Toxicologist

Location: Southern Illinois University Carbondale, Fisheries and Illinois Aquaculture Center, Carbondale, IL (http://www.aquatictox.com/)

Responsibilities: Collects field samples and runs toxicological bioassays including toxicity and bioaccumulation tests. Maintains fish and aquatic invertebrate cultures. Prepares field-collected samples for extraction and analytical analysis for a research project examining the fate and effects of pesticides on various non-target species.

Qualifications: Minimum of a Bachelor’s of Science degree in Chemistry, Zoology or Environmental Toxicology. Applicant must have formal toxicological training with aquatic bioassays and culturing, field experience and have good technical writing and oral skills. Strong work ethic required.

Salary: Commensurate with experience (100% time) and includes full benefits.

Closing Date: August 5, 2013 or until filled. Position begins as soon as possible and is expected to continue for one year with additional years contingent on funding.

Contact: To apply specify the position and submit a letter of application, resume and three letters of recommendation to:
Dr. Michael Lydy
Fisheries and Illinois Aquaculture Center
Southern Illinois University Carbondale
Mail Code 6511, 1125 Lincoln Drive
Carbondale, IL 62901.
